

Product Change Notice

Model:

PDL-20

Description:

Portable Data Terminal

Change:

Scan Engine Change from Symbol SE-900 to SE-955

Reason for Change:

The original manufacture phased out, so new vendor needs to cut in.

Effect of Change:

There will be no change to the device in terms of form and function. For customers use **Hardware Library**, the device will not perform any action.

Process of Firmware update:

To avoid the abovementioned effects, please update your firmware according to following steps.

1. Replace with new library to your project.
2. Rebuild your project to generate new firmware.
3. Bootload new firmware to new hardware device.

Effective Date of Change

Product shipments using this change will be available starting 1st January, 2007.

These changes have been reviewed and approved by ZEBEX Industries Inc. engineers. Please contact your sales representative for any questions or support requirements.
