The Steps for updating the firmware of Z-9000

- 1. Power off the Z-9000 unit.
- 2. Press 8 and the Power key at the same time to enter Program Manager.

3. Use the up/down arrow keys to select "1. Download " and press Enter (blue key) to enter the Download screen.

- 4. Select an empty slot to to store the file and press Enter. Please remember the slot number you selected for later use.
- 5. The "Please Plug The USB Cable" screen appears. Connect the cradle to the computer and plug in the power adapter; place the unit in the cradle when ready. Please install the Z-9000 driver if necessary.

- 6. On your computer, please open the Boot Load Utility (default path: Start>All Programs>ZEBEX>ZAC>Boot Load Utility).
- 7. Check the Device Manager on your computer for the COM port Z-9000 is using.

8. Select the same COM port the Z-9000 is using in Boot Load Utility.

9. Select "Load File" then select the Z-9000 firmware file stored on your computer.
