

## Z-325xBT HID mode setting in Windows 10

#0. Remove the Z-3250BT from PC if ever paired before.

#1. Make sure Bluetooth dongle is working properly under device management.

#2. Scan below barcode in order to restore back to default.

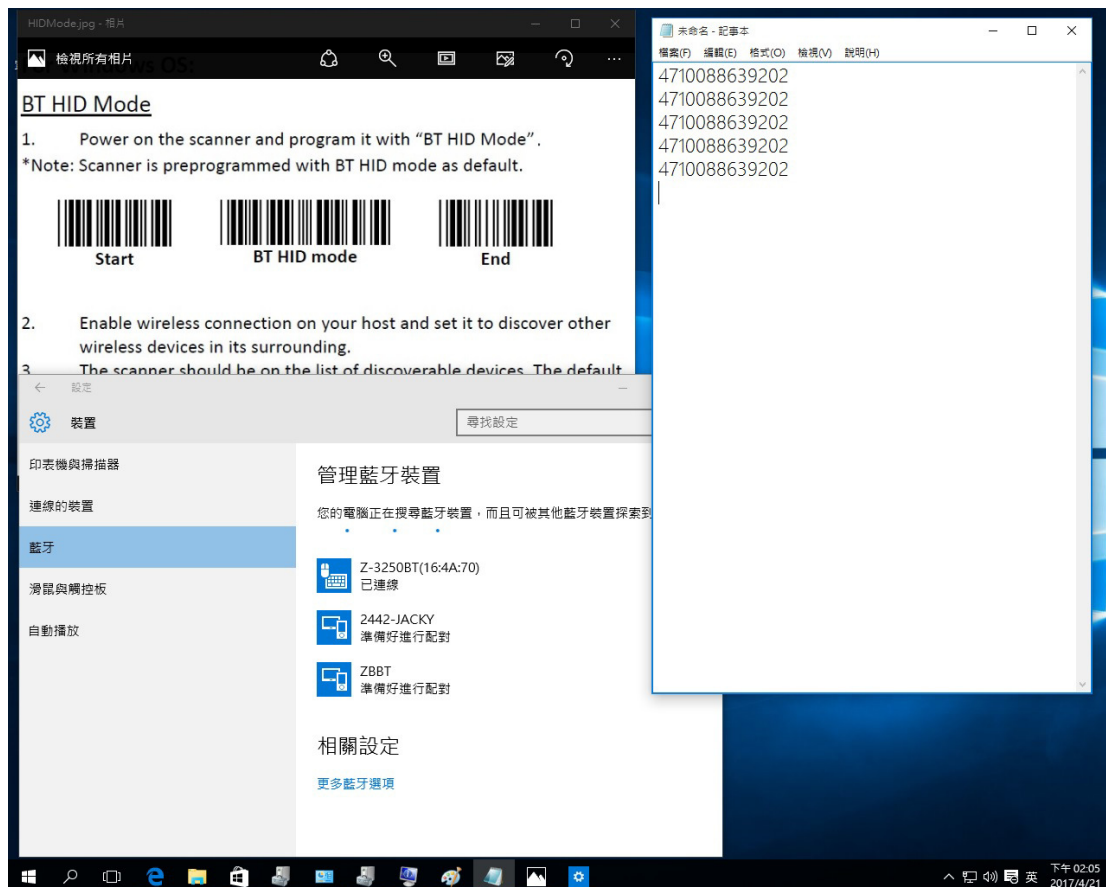

#3. Set to Wireless HID KB emulation.

#4. Search the Z-3250BT device and select, then key in PIN code "12345678" to pair.

#5. If not paired successfully, repeat step#0~step#4 again to make sure each step is correctly.
